Vienna, Austria Roundtable

Please join other regional InfoComm International members and colleagues in a roundtable discussion about issues important to the audiovisual industry and to your individual business. We will share ideas and advice and enjoy networking opportunities. This is a chance to learn about the resources available to you as an InfoComm member and to offer suggestions to InfoComm personnel on how to serve you better.

The regional series of roundtable discussions is a free member benefit designed to empower our members with critical information that will help you in your businesses.
