

Waveguide Consulting and David Gales Bring Advanced Technology Design to the West Coast

SOURCE: [Waveguide Consulting Inc.](#) · RELEASED: 6/8/2009

ATLANTA – Waveguide Consulting is pleased to announce the opening of its Los Angeles office and the appointment of David Gales as director of California operations. Gales joins Waveguide with more than 25 years experience in the architecture, construction and audiovisual/communications industries, including eight years as a founding partner and principal with Vantage Technology Consulting Group. The opening of Waveguide's California office brings a new style of commercial, institutional and urban media technology design to the West Coast.

"David has a national reputation as a thought leader and project director on innovative, large-scale urban media projects such as Fashion Show in Las Vegas and Victory Park in Dallas," said Scott Walker, president and CEO of Waveguide. "Additionally, he has a solid reputation with leading architects and owners in California where forward-thinking designs and green technology, both of which are central to Waveguide's mission, are prominent. David's 25 years serving California's diverse technology markets combined with his success leading large, technologically advanced projects uniquely qualify him to direct our new West Coast office."

Gales' extensive technology design experience in higher education, civic, corporate office and urban media technology design, combined with Waveguide's innovative methods of design and delivery, offer our clients a new approach to integrated technology design. Waveguide's distinctive methodology provides a comprehensive suite of technology consulting services, including audiovisual, acoustical and IT/telecom cabling systems design; AV software programming; and ongoing technology system support.

"Waveguide has an outstanding reputation for working closely with architects to create environments that seamlessly merge technology and building designs," said David Gales, Director of Waveguide's California operations. "Waveguide has also developed a very effective model for consistently delivering the highest quality of design and consulting work on projects of any scale. I'm thrilled to bring my background and experience together with the strength and reputation of Waveguide to serve the design community here on the West Coast and our projects and clients across the country."

About Waveguide Consulting Inc.

Waveguide Consulting Inc.; an independent technology consulting firm headquartered in Atlanta, with offices in Raleigh, N.C.; Columbia, S.C., Tampa, Fla., and Los Angeles; is a national leader in the AV industry.
