

Testimonials

"Multimedia Technical Solutions corporation is extremely pleased with the outcome of our trifold and new web site. The experience of working with Eclipse Marketing was like none other, the constant feedback and updates, the follow up before, during and after the process was gratifying. There is a true commitment to customer satisfaction. Thanks to the outstanding work done by Leslie Stevens and the Eclipse Marketing team, our company is able to deliver an up to date and advanced website. We can deliver marketing materials that helps us stand out within our industry."

— Eddie Lauriano
CEO, Multimedia Technical Solutions Corporation

Eclipse Marketing

Eclipse Marketing, a full-service marketing and public relations firm, and InfoComm International are teaming together to provide a new member benefit — a full suite of affordable marketing tools that will help members grow their business.

Eclipse Marketing's program provides InfoComm members with the most commonly used marketing tools that promote the commercial audiovisual industry, including literature, websites, vehicle wraps, e-newsletters and more. The added benefit is that each tool is personalized for every member so that no two marketing tools look exactly alike.

Pre-created marketing tools are uniquely designed so that members can cost-effectively, professionally and efficiently promote their business to customers, such as retail stores, medical facilities and sports arenas. These tools can promote AV businesses to architects, interior designers, consultants and specifiers. Members can also select the target market that they wish to reach and the type of tool they want for their specific marketing campaign. For more information about Eclipse Marketing, contact [Leslie Stevens](#) or call +1.949.363-5340. Please be ready to provide your InfoComm member ID number.
